

# Portland Firefighters Deployed to World War II While Employed by Portland Fire

*Compiled by Don Porth*

This list may not be complete but is based on the best information available. 10 members, indicated in boldface font, did not return from the war. This list contains 239 names at a time (in 1945) when Portland Fire employed approximately 552 uniformed personnel. This means 43% of the workforce was sent to war somewhere in the world. While Portland Firefighters have served in many war events, from the Civil War to current day, no other had an impact on the department as World War II did.
